

## P.N. Das College, Palta

in collaboration with

**Sir Gurudas Mahavidyalaya, Kolkata**

&

**Dinabandhu Mahavidyalaya, Bongaon**

Organizes a 12 Hour Online Workshop

On

### **The Innovative Use of Information and Communication Technology in Teaching- Learning and Research**

(Date: 6th, 8th and 9th June, 2020)

(Every day from 11.00 AM to 3.00 PM)

#### **About the Workshop:**

Restructuring Higher Education is a key reform of the National Education Policy. It has been observed that technology plays a vital role in Teaching, Learning and Evaluation. NMEICT was introduced a decade ago for the benefit of all learners in Higher Educational Institutions and is believed to have increased the GER by 5% in XI Five Year Plan. The two major components were providing connectivity and content generation. Keeping in line with the same, the NEP focuses on e-learning, setting up of virtual laboratories, online availability of teachers and mentors.

The sudden closure of educational institutions in response to the Covid-19 pandemic has necessitated the adoption of online teaching learning strategies. During this period students too have adopted and adapted to the change in pedagogical tools and means. Technological innovations are inexorable and at the same time inextricable from the processes of social change and advancement.

The workshop will emphasize on all features of Google Drive, emphasizing on collaborative work, evaluation, own website development, use of Google platform for attendance and LMS, as a whole. Also hands on training on e-module development and publishing the same shall be provided.

We are already using e-resources through NLIST, NDLI, EPG Paathshala, E-Shodhganga etc. The workshop shall emphasize on the access and use of digital information.

Use of technology which was initially boasted as best practice of an HEI is now a basic means of communication between the teacher and the taught.

Use of ICT in Research, too, is well established. Secondary Data collection and analysis using free software shall, therefore, be one of the key areas of the proposed workshop.

The World has dramatically changed with the incorporation of Information and Communication Technology in almost every field of our social life, and education, too, with an optimum and efficacious use of digital platforms, has undergone a virtual metamorphosis over the last few years. The pandemic has only exposed us to the potentialities and possibilities of information and communication technology (ICT) as a way to see as well as to change the very concept of education in the days to come. The Primary objective of the workshop, spreading over a total of 9 hours, is to motivate the teaching fraternity for enlivening the teaching process with the use of Information and Communication Technology (ICT) and to equip the teachers with the latest assessment tools of higher education.

### **Resource Persons:**

- **Sri Debashish Barman**

*(Department of Computer Science, Sir Gurudas Mahavidyalaya)*

- **Dr. Suchismita Majumdar**

*(Librarian, Sir Gurudas Mahavidyalaya)*

- **Dr. Sudip Mukhopadhyay**

*(Department of Economics, Dinabandhu Mahavidyalaya)*

- **Sri Suman Ranjan Bandhopadhyay**

*(Department of English, P.N. Das College)*

- **Dr. Bablu Biswas**

*(Department of Mathematics, P.N. Das College)*

- **Sri Prosenjit Pramanick**

*(Librarian, P.N. Das College)*
